Dedicamos un apartado especial al modelo **“La Cabaña”**. El motivo, que entre los modelos de Chalet de aproximadamente 200 metros cuadrados, figura como el más solicitado por nuestros clientes y su construcción se halla en todo el territorio nacional.

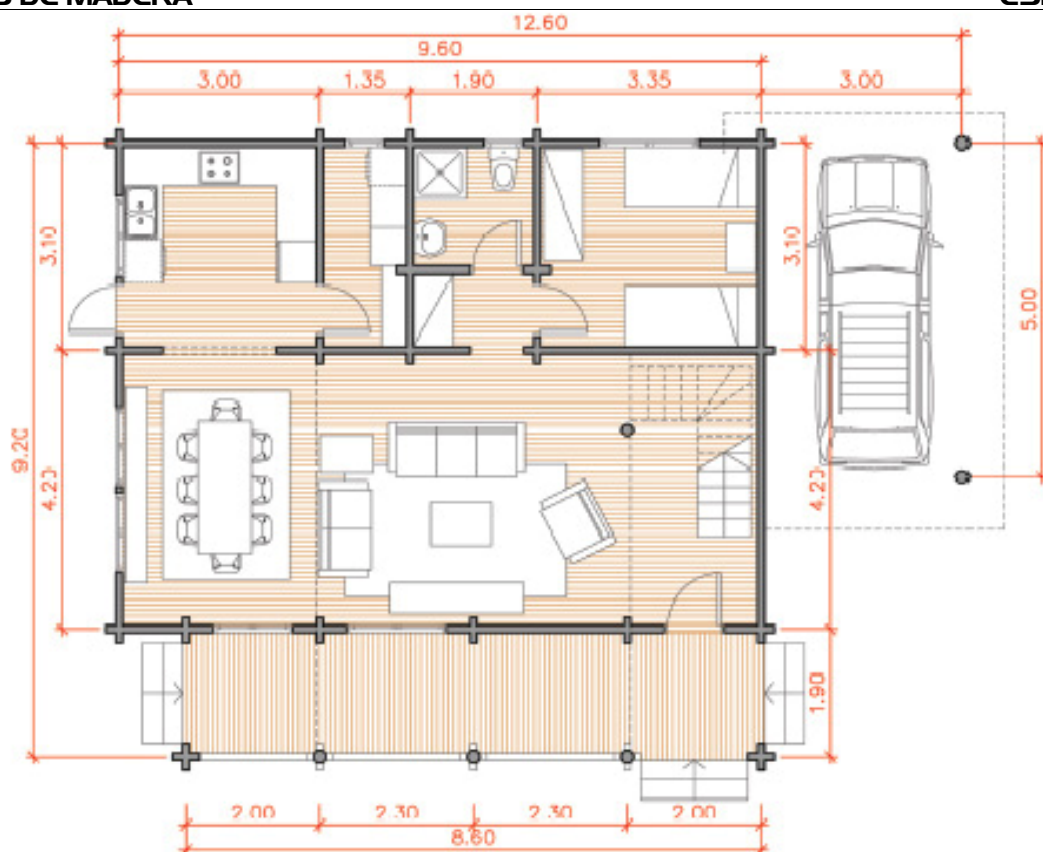

En todos ellos se ha tratado de mantener los criterios estéticos de su apariencia externa y adaptarlos a las necesidades de distribución de cada cliente, así como al número de metros cuadrados y normativa urbanística de cada zona. Es sin duda un modelo que combina una excelente apariencia externa con todas las posibilidades de distribución interna, que se adaptan a cualquier necesidad y consigue una excelente habitabilidad interior.

**La Cabaña** es sin duda una elección segura en construcción de madera.

Otro modelo que goza de gran aceptación es el modelo "Ciudalcampo". Este chalet se construye en una o dos plantas, y permite diseñar desde bungaloes de 30 metros cuadrados de una planta, a un gran chalet en una o dos plantas en función de las necesidades de cada cliente.

Dispone de una gran amplitud, con sensación de mucho espacio. Una gran ventaja a destacar es que las casa de una sola planta pierden muy poco espacio en las zonas de paso.

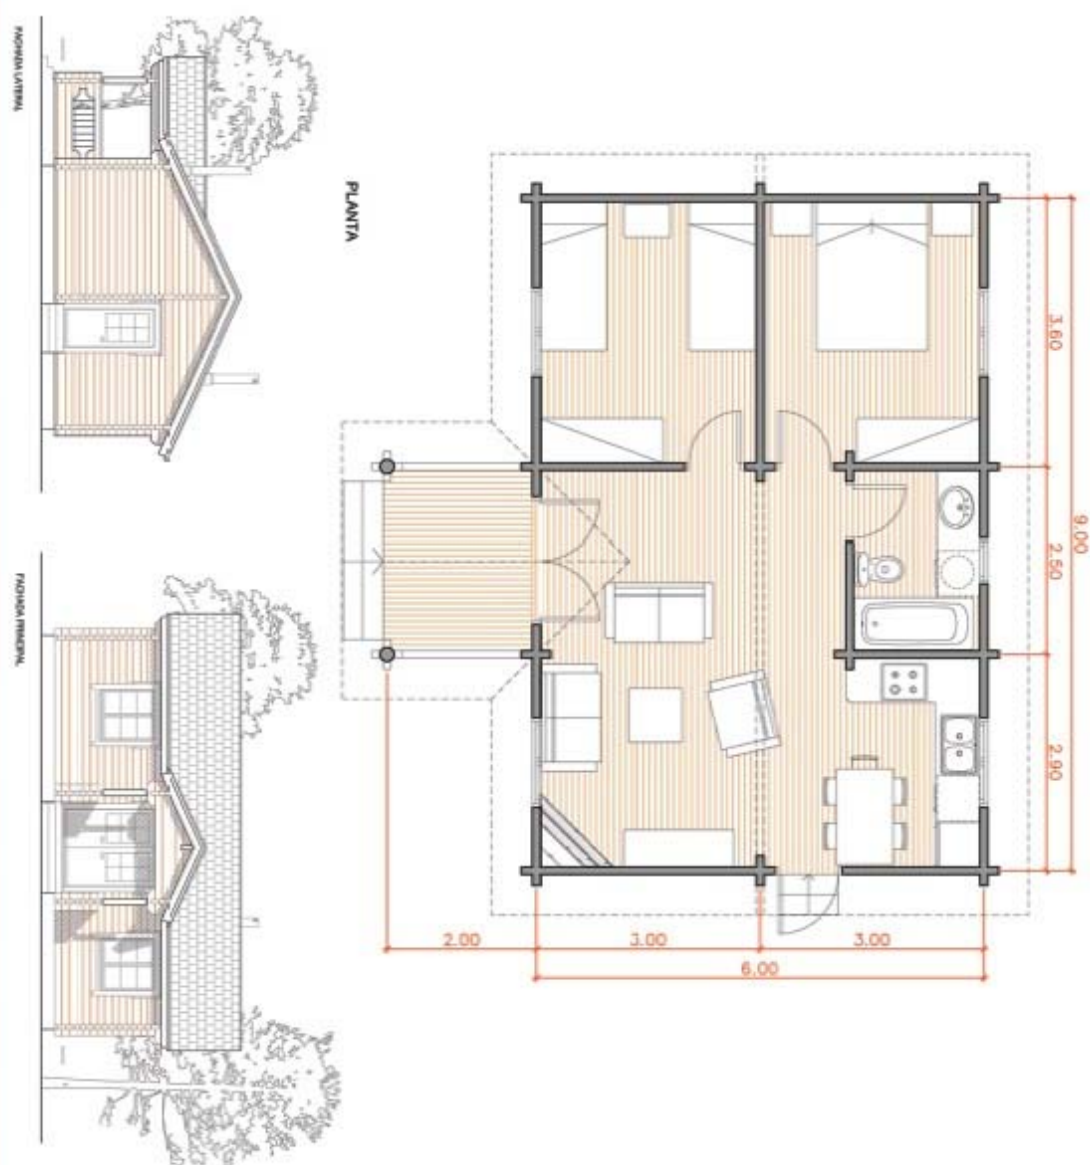

El modelo Ciudalcampo es una gran elección, sobre todo en los chalets de una sola planta.
